# HC-001

Accessory

## Mechanical Mixing / Check Valve

The HC-001 is a mechanical mixing with check valve that regulates water temperature. This mixing valve is intended for faucets without a built-in mixing valve but can be adapted to any application that requires water temperature control.

The HC-001 does not provide thermostatic mixing capability. For a thermostatic mixing valve, please use Hydrotek part number HBL-03 or HBL-04-LR (low lead).
